Education

Vellore Institute of Technology <i>B.Tech. in CSE (AIML), Chennai, Tamil Nadu (Rank Holder)</i>	Jun 2023 – Present CGPA: 9.79 / 10
Devi Academy Senior Secondary School <i>AISSCE, Chennai, Tamil Nadu</i>	Apr 2022 – Apr 2023 Grade: 96.2%
Devi Academy Senior Secondary School <i>AISSE, Chennai, Tamil Nadu</i>	Apr 2020 – Apr 2021 Grade: 97.6%

Technical Skills

- **Languages:** Python, Java, Golang, C++, JavaScript, TypeScript
- **Databases & Distributed Systems:** PostgreSQL, MySQL, MongoDB, DynamoDB, Redis
- **Backend & APIs:** FastAPI, Express.js, Node.js, Next.js, REST APIs, authentication, middleware, validation
- **Tools:** AWS, Docker, Prisma, JWT, Zod, Git, GitHub, Postman, BullMQ
- **Agentic AI:** LangChain, LangGraph, Tool Calling, Deep Agents, PageIndex

Experience

Backend Engineer Intern <i>Kravos Tech Pvt. Ltd.</i>	May 2026 – Jun 2026 <i>Next.js, Groq AI, PostgreSQL</i>
• Engineered Groq AI resume parsing pipeline handling 10+ candidate resumes with structured PostgreSQL extraction for recruiter platform. • Developed AI-driven job description and screening modules, validating API behavior, edge cases, and data consistency across candidate inputs. • Debugged backend issues across API routes, database records, and application logs while collaborating with engineering stakeholders.	
Full Stack Developer Intern <i>Daira Edtech Pvt. Ltd.</i>	Jun 2025 – Aug 2025 <i>Next.js, PostgreSQL</i>
• Designed and implemented 6+ RESTful APIs for authentication, content delivery, and session management in a production UPSC learning platform. • Improved backend reliability with validation, structured error handling, and issue isolation across API, database, and frontend integration layers. • Collaborated in 5+ code reviews and sprint discussions, communicating technical tradeoffs and resolving defects through iterative delivery.	

Projects

Launchly - Self-Hosted PaaS <i>Bun, Express, React, PostgreSQL, BullMQ, Redis, Docker</i>	GitHub
• Built a GitHub-integrated deployment platform with one-click app deployment, Docker containerization, and async job orchestration. • Engineered BullMQ + Redis job queue for automated build pipeline: clone, build, deploy, and subdomain routing. • Implemented reverse proxy with wildcard subdomain routing and dynamic port allocation for container traffic forwarding. • Integrated GitHub OAuth, PostgreSQL state management, and deployment status tracking via REST APIs.	
Channel - Markdown Blogging Platform <i>Bun, Express, React, MongoDB, JWT, Zod</i>	GitHub
• Built a markdown-based blogging platform with real-time content rendering, SEO-friendly slugs, and secure JWT authentication. • Designed 6 REST API endpoints for user authentication, blog CRUD operations, and post management with Zod schema validation. • Implemented MongoDB data persistence, httpOnly cookie-based sessions, and role-based access control for authenticated blog operations.	

Achievements

- **Academic:** Ranked 2nd out of 500+ students in AIML Specialization, VIT Chennai (2025 and 2026).
- **Academic:** Ranked in the Top 9 out of 300+ students in Electronics & Computer Engineering, VIT Chennai (2024).
- **Hackathon:** 2nd Place – Web Works Hackathon; delivered a production-ready full-stack web application within a 24-hour time constraint.
- **Certification:** AWS Certified Solutions Architect – Associate (Amazon Web Services).
- **Certification:** Harvard CS50P – Introduction to Programming with Python (edX).
- **Certification:** The Complete Web Development Bootcamp – Dr. Angela Yu (Udemy).
- **Certification:** Supervised Machine Learning: Regression and Classification – DeepLearning.AI (Coursera).

Publications

Kinematic Assessment System with Biometric Authentication and Geofencing

May 2026

Indian Patent Application | Co-Inventor | Application No. 202641053341

VIT Chennai

- Proposed a wearable IoT device integrating TinyML on-device inference for real-time neurological motion analysis (tremor, gait freeze, fall detection) without cloud dependency.
- Prototyped polygon-based geofencing with ray casting algorithms and fingerprint biometric authentication to enable secure, context-aware patient monitoring.
